

Web Developers

Reference Number: GR_WDO2014_2

As an integral part of our European expansion strategy, we are happy to announce that we recently opened an XM representative office in Athens, Greece and we are seeking to recruit high caliber, ambitious and energetic professionals to join its IT team!

The key responsibilities of the role include:

- Developing new web applications and technologies
- PHP development as per project needs with the use of frameworks
- Developing database management systems on the web and ensuring the design and pattern of the developed website is according to the requirements of the Head of Development, in terms of security, data integrity, functionality, and features
- Implementing web application utilities for reporting, reconciliation and other purposes on a daily basis
- Designing, creating and developing SQL (MySQL) Server databases on a per project basis
- Performing routine site maintenance as needed and spot errors
- Maintaining and updating the payment gateway for electronic transferring of funds

You must meet the following criteria:

- BSc/MSc in Information Technology/Computer Science or any other relevant degree
- Working knowledge of PHP, MySQL (or SQL) and version control systems
- Experience in PHP Frameworks (CakePHP, CodeIgniter, Zend framework, Symfony or other related frameworks)
- 2-3 years experience with web services and more specifically with electronic payments is considered an advantage
- Ability to multitask and prioritise
- Problem solving and analytical thinking skills

Remuneration: An attractive remuneration package will be offered to the successful candidates

Type of employment: Full time

Location: Athens, Greece

Please forward us your CV to careers@trading-point.com quoting the above job reference number.

All applications will be treated with strict confidentiality!
